## EDUCATION

---

**Cornell University, College of Arts and Sciences, Ithaca NY**

Graduated, May 2020

Bachelor of Arts (Biology and Society) focus on behavior

## ACADEMIC INTERESTS

---

Moral reasoning and intuition

Concepts and Categories

Theory of mind

Attribution theory

Causal reasoning and inference

## RESEARCH EXPERIENCE

---

**Research Assistant, Causality in Cognition Lab, Social Learning Lab, and Language and Cognition Lab at Stanford University**

Aug 2020-present

- PIs: Tobi Gerstenberg, Hyowon Gweon, Michael Frank
- Will explore collaborative projects relating to counterfactual models of causal reasoning, early development of theory of mind and cross-cultural differences in early abstract reasoning

**Research Assistant, Applied Moral Psychology Lab at Cornell University, Ithaca, NY**

Aug 2020-present

- PI: Laura Niemi
- Will explore projects that help build a mechanistic description of morality and an understanding of how moral commitments lead to wellbeing and discord

**Research Assistant, Pizarro Emotion and Judgement Lab at Cornell University, Ithaca, NY**

Jan 2019-May 2020

- PI: David Pizarro
- Collaborated with an interdisciplinary team of 10 to formulate 2 procedures for analyzing taste sensitivity
- Developed and administer a 60-question political compass and disgust-sensitivity survey to over 50 subjects
- Implemented a MATLAB algorithm for quantification and data analysis of oral fungiform papillae
- Performed literature review on moral psychology and neuroscience from various science journals

**Research Assistant, Raguso Animal Behavior Lab at Cornell University, Ithaca, NY**

June 2016-Dec 2016

- PI: Robert A. Raguso
- Served with research team of 5 in a study that contributed to push-pull agricultural pest management techniques
- Reared, fed and maintained populations of *Drosophila* fruit flies, *Manduca* and Hyles moth species
- Shadowed a supervisor to fly moths through a 2-way wind tunnel to probe effect of water vapor on flight pattern; and to isolate plant volatiles using gas chromatography-mass spectrometry
- Investigated attraction and repulsion to plant volatiles by running *Manduca* caterpillars through a multi-arm arena

## **AWARDS**

---

- 2020**      Exceptional Senior Feature, Cornell University
- 2019**      SEG Summer Research Grant: For the Taste Sensitivity Study at David Pizarro Lab, Department of Psychology (\$1250, Role: Research Assistant)

## **SKILLS**

---

- Computer**    MS Office (Word, PowerPoint, Excel), Qualtrics, R, Adobe Premiere Pro, Adobe Final Cut, Learning Python
- Languages**   Swahili (fluent), Spanish (basic)

## **PROFSSIONAL MEMBERSHIPS**

---

Cognitive Science Society

## **LEADERSHIP EXPERIENCE**

---

- 2020-2020**    Peer Advisor, Office of Off-campus Living, Cornell University
- 2019-2020**    Student representative, Biology and Society major, Cornell University
- 2018-2020**    Summer manager and Social Chair, Triphammer Cooperative, Cornell University
- 2015-2018**    President, Givology at Cornell, Cornell University
- 2015-2018**    Co-president, International Student Admissions Ambassadors, Cornell University
